and/or teach. In unique circumstances, applicants who wish basic research training may be considered if the environment in the home country will permit continued research upon the completion of training.

The guidelines for application are as follows:

- (1) Fellowship awards will be made only to physicians from developing countries.
- (2) Applicants must provide evidence of acceptance into a recognized and suitable training program before the award can be granted.
- (3) The Fellow must return to his or her home country upon completion of approved training.
- (4) The Fellow must provide evidence of a guaranteed position in a medical institution upon return to the home country.
- (5) Fellows will receive a stipend from the Society such that, taking into account the home country and/or the host institution support that they may have, they achieve a \$20,000 US revenue.
- (6) Fellows must be able to read and speak the language of the host country. An interview may be required to assess verbal fluency.

- (7) Fellowships will be offered primarily for clinical training of one to two years duration.
- (8) Clinical training programs should be practical in their orientation, and applicable to the needs and conditions of the home country. The ability of the host institution to provide such training will be an important factor in the selection process.
- (9) Fellows must have received sufficient training in internal medicine or other fields to pass all host country examinations that are necessary to the care of patients. Fellowships may be awarded to senior individuals who seek additional training but, in general, preference will be given to younger physicians who are at the beginning of their permanent careers.
- (10) Specific instructions and the necessary application forms can be obtained by writing directly to Jan J. Weening, M.D., Academic Medical Center, Meibergdreef 9, 1105 AZ Amsterdam, The Netherlands.

Errata

In the recently published article, "Ambulatory blood pressure and abnormal albuminuria in type 1 diabetic patients," by K.W. Hansen, P.L. Poulsen, and C.E. Morgan (*Kidney Int* 45

(Suppl 45):S134-S140, 1994) Figure 5 was incorrect. The correct figure is printed below. The editors and authors regret the error.

R&D Laboratories was inadvertently omitted as a sponsor for the February and April Nephrology Forum. The editors regret the error.
